

USING ENIXA ON AN IPAD

You may download the Enixa iOS app using your iPad however, as it is not optimised for iPad, we recommend you use the Enixa web version by following the below instructions. If you have downloaded the iOS app, please delete it before you follow these 6 steps.

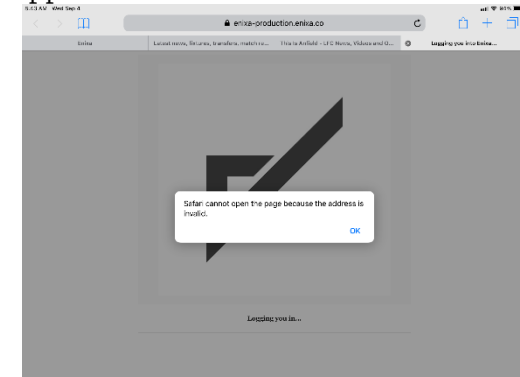

1. Go to www.enixa.co, click 'Log In' and follow the prompts to either register or select already registered

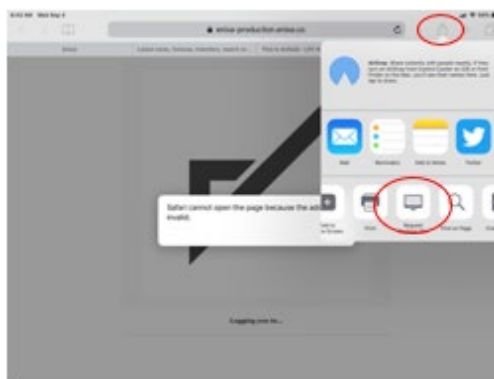

2. You will then receive an email with a drawbridge link. From your iPad, click the blue login button

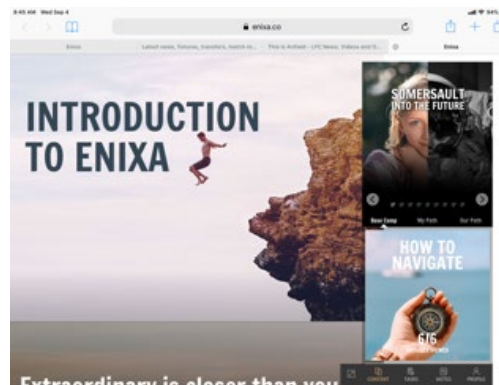

3. You will be directed to Safari where the message 'Safari cannot open the page because the address is invalid' will appear

4. At the top right-hand side of the page, click the share button (square with arrow ) , and scroll across to the right-hand side on the bottom row of options until you see the option to 'Request Desktop Site'.

5. Click 'Request Desktop Site' and you will be logged into the web version of Enixa.

6. To store a shortcut on your dashboard, click the share button at the top right-hand side of the page () and scroll across to the right-hand side on the bottom row of options until you see the option to 'Add to Home Screen'.
